

# The Nature of Wisdom NOW IN IRELAND!

## **AWAKENING TO YOUR LIFE'S PURPOSE THROUGH THE WAY OF THE MEDICINE HORSE**

This two-part advanced intensive program is an in-depth exploration of the Way of the Horse as a profound journey of self-discovery and transformation. With horses as your inspiration and guides, you will learn life skills for increasing self-awareness, learning to hear your inner guidance, discover your hidden gifts and begin to access inner peace. NOW will teach you how to develop an approach to life that enables you to live deeply and awaken to your life's purpose in a way that integrates all of the wisdom gained from your life experiences. **NOW** will show the way to your personal wisdom.

A maximum of eight (8) carefully chosen individuals will meet for a week on two occasions, with reading assignments and conference calls in-between weeks. Prior to acceptance in the program, applicants are encouraged to attend an introductory level workshop.

**Week One: March 11 - 17, 2018**  
**Week Two: May 23 - 29, 2018**

*The overall theme of the program is beautifully described by Sue Monk Kidd in her book,  
When the Heart Waits:*

*"Is it possible, I asked myself, that I am being summoned  
from some deep and holy place within?  
Am I being asked to enter a passage in the Spiritual life,  
the journey from false self to true self?  
Am I being asked to dismantle old masks and patterns  
and unfold a deeper, more authentic self, the one I intended to be?  
Am I being compelled to disturb my inner universe  
in quest of the undiscovered being who clamors from within?"*

In response to those questions, The NOW program will focus on teaching you how to take new tools and expanded self-awareness back into your life, family, relationships, and community. You will learn how to be more authentic, set healthy boundaries, and actually live from a larger perspective of who you are and what's possible for you.

**You will learn how to apply Now principals to everyday life:**

**Congruency over Conformity**

**Authenticity over Perfection**

**Adaptability and Inquisitiveness over Methodology**
